

Dodging Raindrops

311

Why do I stay inside
I should be living life
Instead of watching through the window
No use in playing safe
Not gonna hesitate
I know the storm is only mental

I'm letting go
Giving up the control
Yeah I'm ready to
Go wherever the wind blows
I wanna see
Where the road's gonna lead
Time is ticking and
The world is not waiting on me

I've been dodging raindrops for far too long
These clouds over my head they won't move on
I've been dodging raindrops
Trying not to get wet
I've been dodging raindrops for far too long

Dodging raindrops
But they're all in my head, all in my head
But they're all in my head, all in my head

Sooner or later it comes
As quick as it comes it'll go
Whatever is blocking the sun
It's only for a moment
Running away from my past
It's pushing me out of my zone
Pulling me under the gun
Into the unknown

I'm letting go
Giving up the control
Yeah I'm ready to
Go wherever the wind blows
I wanna see
Where the road's gonna lead
Time is ticking and
The world is not waiting on me

I've been dodging raindrops for far too long

These clouds over my head they won't move on
I've been dodging raindrops
Trying not to get wet
I've been dodging raindrops for far too long

Dodging raindrops
But they're all in my head, but they're all in my head
But they're all in my head, but they're all in my head
(I've been dodging raindrops)
But they're all in my head, but they're all in my head
(I've been dodging raindrops)

But they're all in my head, but they're all in my head

Ready to go outside
And to be livin' life
Instead of watching out the window

I've been dodging raindrops for far too long
These clouds over my head they won't move on
I've been dodging raindrops
Trying not to get wet
I've been dodging raindrops for far too long

Dodging raindrops
But they're all in my head, but they're all in my head
But they're all in my head, but they're all in my head
(I've been dodging raindrops)
But they're all in my head, but they're all in my head
(I've been dodging raindrops)
But they're all in my head, but they're all in my head
