

I'm takin' to the bridge and there's a different country  
 I'm bringing with me the people I know deep down are funky  
 Oh yeah we dap we got the juice it's on tap  
 Never take the time to rewind all the weak crap  
 Here take it it's yours the gift is calling  
 The sunshine be falling our way first every morning  
 I'm a magician you see I'm christened with condition  
 Held over from a future would I've come to you so listen  
 There's a place out in deep space  
 Where all the brothers chant and dance and rant  
 And shave their heads like Buddha  
 I'm a fly guy you know I'm smoother  
 Of course no remorse is felt for all those loser crews

I do not care what you do, I always screw up  
 But when I do it's nothing like you, I wish you grew up  
 You're saying anything like promise to get clean  
 Won't kick half dead fucked up in the head  
 Just get him out of here he's making me sick

We push a sucker out  
 With much force and much clout  
 Didn't want to do it  
 That's not what we're about  
 But we got to have a limit  
 How low can you get it  
 Seems about time to  
 Change the subject  
 And sing about the wise eyed  
 That makes me feel  
 Good and never do  
 I leave misunderstood

Damn you know I feel good true  
 I got a choice of what I'm gonna do It's like this that  
 Earth is where it is at  
 Mix a melody with some back chat  
 Tell 'em again  
 Damn I know you feel good too  
 You got a choice of what you're gonna do it's like this that  
 Earth is where it is at  
 Mix a melody with some back chat

I'm rollin' slow no particular place to go so nothings changed  
 The more things stay the same the more it doesn't matter  
 To a latte day St. Bernard acting hard  
 But I throw down like a crazy retard  
 But what could make a man  
 Wanna walk around the school yard with his tool hard  
 What could make the switch to call a woman a bitch  
 It probably happened when you couldn't get a date to the prom  
 And you were stuck with Beavis  
 Let's leave us on a note of positivity  
 I'm saying this for levity  
 But if I leave it brief I call it brevity  
 I said I see the people rocking  
 Which means there's no stopping the flow

And you can just tell 'em that you know

Every night yeah we turning up

And comin' off live

Like and final 311 battle breakin idols

On the one you never heard before

You know the hardcore rockin

Pumping the dance floor

Leave ya feet sore lookin for your Micatin

Cecause the mic is deadly int he mood we in

Certified not fakin coool like a Jamaican

Every time the enemy hear us they will be shakin'
