

Ticking like a time bomb
Where did you come from?
Nowhere that you can run
That is all done

Your eyes are getting salty
It's not my fault
He's gonna need assistance
That's the difference

Boom, vato loco, we just stepped in the room
Zoom, now your homies will be singing this tune
Step back when chicolero comes we're gonna explode
We got the place surrounded, don't be a hero

Bet you didn't think that we thought of that
Came up with that shit way back
Innovation ruling the nation, the dancehall's back
What you know about that? Say

Let me introduce you to the excitable crew
This is just how we do
Ticking like a time bomb
Watch me go off

Let me introduce you to the excitable crew
This is just how we do
Ticking like a time bomb
Watch me go off

Ay yai yai, yeah, you know how we roll
I know I'm broke, I know I've been lonely
No, you know we've been down

Well, I'm rocking on my mic
Saying things that you like
We won't let you down
We are the system of sound

The excitable crew
We do this with you
The innovator came to stay
So what you gonna do?

This is what we want
And I say this is what we need
G-g-go back in memory to the time, hey baby
The universal heart pulse will never stop living, sing

Let me introduce you to the excitable crew
This is just how we do
Ticking like a time bomb
Watch me go off

Let me introduce you to the excitable crew
This is just how we do
Ticking like a time bomb

Watch me go off

I remember back in the day we would work hard
Getting down our parts, there was no crew
Me and you planning out what to do
Work hard, play hard, getting down our parts
I remember back in the day

Let me introduce you to the excitable crew
This is just how we do
Ticking like a time bomb
Watch me go off

Let me introduce you to the excitable crew
This is just how we do
Ticking like a time bomb
Watch me go off
