

METHOD ACTING

347aidan

Talking to ourselves
Talking to ourselves with some passion
Walking through the clouds in high fashion
Sailing ups and downs with no captain
Floating if this ship get to crashing
We've been method acting for way too long

Don't be scared of the things you wonder
The hesitation will take you under
Just live your life, we're not getting younger
The dance with death only makes us stronger

Any minute now
We'll be out
Cross the country doing rounds
Foreign cars all around
See one out my window now

Any minute now
Any minute now

Getting up and out, forgetting
We gon' wake the town confessing
That they let us down, no telling
But we went and found our blessings

Don't be scared of the things you wonder
The hesitation will take you under
Just live your life, we're not getting younger
The dance with death only makes us stronger

Don't be scared of the things you wonder
The hesitation will take you under
Just live your life, we're not getting younger
The dance with death only makes us stronger

We've been doing this for hours
You was tryna take my power
How could you say I'm the coward?
When it's me who's calling all the shots

And we've been doing this for hours
You was tryna take my power
How could you say I'm the coward?
When it's me who's calling all the shots
Yeah
