

(Yeah it's like this)
I woke up this morning
Sat up and put some weed in my hand
And grabbed the paper from yesterday's pants
Then rolled the joint while still sitting in bed

Found a remote I need for the TV
Put on some Sex and the City
And it just so happened so lady was with me
Now I'm having sex to Sex and the City

And today might start late
It's my mini holiday
It's okay to take breaks
We all need some time away
Work can wait, I'm not phased
I'm up in my happy place
Maryjane in a haze
You can see it in my face

Somebody hand me a lighter
I gotta spark this up
We're gotta pull an all-nighter
And smoke a bunch
I'm getting higher than I've ever been
And putting on something to watch with my friends
Such a good time, I don't want it to end
Next week I'll make sure it happens again

And today might start late
It's my mini holiday
It's okay to take breaks
We all need some time away
Work can wait, I'm not phased
I'm up in my happy place
Maryjane in a haze
You can see it in my face
