

Also Am I

36 Crazyfists

Looking lost as the night disappears. I hold my breath as I wait out the fear
Swallowing the plagues I own and draped in hell from head to toe, and I design serene but I poison the inside
Avalanche crashes down and I'm to remain calm?

If you were looking for someone to save you, also am I
If you were looking for something to believe, also am I
Don't go quietly

Cold air brings the breath to light, a glass bottle drinks the city dry
Following the path I'm in has never been my closest friend, and I design serene but I poison the inside

Avalanche crashes down and I'm to remain calm?
Come on!

If you were looking for someone to save you, also am I
If you were looking for something to believe, also am I

Don't go quietly

If you were looking for something to believe you, also am I
It disappears and I am looking lost, draped in hell
