

## An Agreement Called Forever

36 Crazyfists

Cave in and try to take away  
All that I have, all I betray...  
So much damage I've done  
Well this I know, that I just fail

Turn me on me  
Turn me on me  
'Cause this is everything I've stripped away  
I've stripped away

This is me, well this I know  
This is me, well is it?

Well the youth has certainly gone away  
And at times I'd like to erase...  
Please don't see that I can't have loyalty  
'Cause I just fail

Turn me on me  
Turn me on me  
'Cause this is everything I've stripped away  
I've stripped away

And I have tried to sit you down and take the fall  
Look you in the eye and tell you it all  
And I have tried to sit you down and take the fall  
To look you in the eye and tell you it all.....I fail

'Cause this is everything I've stripped away  
I've stripped away

This is me, well this I know  
This is me

I fail...

'Cause this is everything I've stripped away  
I've stripped away
