

Name Your Rapist

36 Crazyfists

What then

And it comes screaming
From all this dreaming
People falling
No one's open
I see new colors
Not like the others
Name your rapist
Only once

Save my life, save my life
Save my life, save my life
Walk on through, this hatred
Walk on through, this hatred

It seems like I've lost my strength
And though you won't go
Love is not when we don't know
It gets through
It gets through

Save my life, save my life
Save my life, save my life
Walk on through, this hatred
Walk on through, this hatred

Yeah
Through it
Kneeling while we pray
Save my life

Now for it shows
Makes you stronger
Like fire
All's out
You're just like this
Last new liar
Who steals
When we say

Save my life, save my life
Save my life, save my life
Walk on through, this hatred
Walk on through, this hatred

Yeah
Through it
Kneeling while we pray
Save my life

Save my life, save my life
Save my life, save my life
Walk on through, this hatred
Walk on through, this hatred

Yeah

Through it
Kneeling while we pray
Save my life
