

Take me down the coastline
Take me on a trip down the road to your heart
'Cause I'm wasting no time
Take me to a place that nobody knows

You've been on my mind
Talking that bullshit, you like wine
Getting them hooks in all the time
How can I put this? You so fine (you so fine, fine)
Hi
What if I could give you my life?
Follow them footprints to my ride
Reckon you should live by my side (by my side, girl)

Hey now, we can't slow down
Feeling pretty soon I'll be on my own now
Never feeling ready when I'm living with no doubt
You ain't feeling this way though, so I
Feel I need to
Walk away 'cause
This feels like a
Nightmare now I
Got so low, I better get up
She wants space, I'd better let up
Said she loves my get-up, yet I
Can't get her to bang, bang
Yes, I am upset, I'm fed up
This feels like a set-up when you're
On my neck, I get so hooked in
When you hit me with them fang, fangs

Take me down the coastline
Take me on a trip down the road to your heart
'Cause I'm wasting no time
Take me to a place that nobody knows
'Cause we'll be going so fast
With you, I won't crash, you know I'll be the one
To take you down the coastline
Take you to a place that nobody knows

I've been on my grind
Making this happen, getting them dimes
All from rapping, I'ma be fine
Said I'd be back and smashing
Now, I gotta take what's mine, mine, hi
This is your captain, we are up high
Look at us thrashing up in the sky
Now that I'm back in, happening
Now I gotta take my time, baby
Anything I wanted, I was having it all to mine
People get a hater when you over the borderline
Anybody listening'll never be bored when I'm
Gonna be the one he's slaughtered by
It's my job now, drop down
[?] you're gonna rock out
Watch out, hop down
Showing you the way, you gotta drop now

Fucking up the world, I should get a vasectomy
How did you make it? This is the recipe
When I hit 'em all with the greatest hits
Would be the only way that anybody getting the best of me
Now now, gotta pull rank
Same time, I don't want to look back
Now, I'm feeling ready when I got a full tank, so

Take me down the coastline
Take me on a trip down the road to your heart
'Cause I'm wasting no time
Take me to a place that nobody knows
'Cause we'll be going so fast
With you, I won't crash, you know I'll be the one
To take you down the coastline
Take you to a place that nobody knows
