

Yeah, turned myself into a night owl  
Goin' at it till it's lights out  
Only partied on the weekends  
To goin' at it every night now  
Everythin' is gettin' so dark  
Gotta go and sort my life out  
Was always good at livin' life up  
But couldn't handle when it died down  
Never thought that I would take off  
Gettin' money just to make songs  
Got all then fucked up  
Can't believe it didn't take long  
Where the hell have all my mates gone?  
On a path that I strayed from  
Please know that I'm the one to put the blame on  
Didn't know what I was lookin' for  
On a road that I shouldn't walk  
I know now that I should've called  
But was so fucked that I couldn't talk  
People wouldn't understand it  
This life isn't good at all  
When you find out there's no one  
In your life now, better look towards the-

Moonlight, so bright  
And those lights  
So high on life  
Electrified

'Cause you get me closer  
Baby, it's euphoria  
You know [?] baby  
You know [?]  
And I need your touch  
Can we call this off?  
Don't wanna end tonight  
'Cause you get me closer  
Baby, it's euphoria

There's a light inside  
Guidin' me like this might be the time  
For the ride of my life  
Makin' an art of survivin' the times  
Fight and survive  
Livin' every day like I'm likely to die  
Left to repair [?] of my mind  
Then I'm left to reclaim what is rightfully mine  
Yeah, who the fuck want war?  
I don't really care man, I just want more  
Everythin' I learn about in my life is  
Anythin' you fear, you run towards it  
Readjust your course  
Better give it everythin' and nothin' more  
Ain't nobody care when you up and fall  
When the only thing that matters is you runnin' forwards  
Yeah, what the fuck are you waitin' for?  
Don't take your life in that stupid way

Go take your life and then make it yours  
Save 'em all  
Understand that you're made for more  
Make 'em proud when you be the one  
That they prayin' for

'Cause you get me closer  
Baby, it's euphoria  
You know [?] baby  
You know [?]  
And I need your touch  
Can we call this off?  
Don't wanna end tonight  
'Cause you get me closer  
Baby, it's euphoria
