

I've been going on a mission  
For a crown that has been mine  
Always got crippled by the doubt on the inside  
Never play it safe, to be prouder of this life  
You'll get much further if you down to be disliked  
Never take a stand, and you reckon it's a luxury  
When I get to doing it, you definitely judgin' me  
So concerned with what other people think  
The opinions that you hold are dependent on your company  
Being authentic is the way to the soul  
To do it unapologetically is making you whole  
But you got people around you thinking they know best  
If it's really your life, start taking control  
But you always on the run, now I think I understand why  
Time to man up, get yourself a damn spine  
But the truth in this climate's a landmine  
Making all your views seem impossible to stand by

So you think about this every day  
But it's something you won't entertain, you feel a sense of shame  
Say the truth, you'll be sent to stage  
Say too much, and you get sent away, so now there's less to say  
Hide everything you feeling beneath  
Only sharing with your misses what you longing to make  
You never telling them the shit that you really believe  
But only ever what they want you to say

If they don't  
Like the way  
You think that much, then you should  
Tell them all to fuck themselves  
And if you  
Think that I'm  
Still holding on to something  
You could go and fuck yourself

Now, you know that  
Being you is a place that you're rarely gonna go  
You keep it to yourself 'cause you scared to rock the boat  
Disagreeing with them all, unaware of where to go  
Because you used to agree, now there's areas you don't  
So you say you're on the fence or don't know what to think  
Deep down, it's just something you won't go and admit  
Anytime that you did, had 'em throwin' a fit  
And that smoke of the shit is what you hope to resist  
If you went scorched earth, you'd go longer in life  
But you crippled by the notion you've got to be liked  
You don't care if it's wrong, you gotta be right  
I know you probably never gonna, but I want you to try  
To go set a new code you can live your life by  
Can't see clearly when you live in hindsight  
Work on yourself just to get your mind right  
And show 'em that there's no more Mr Nice Guy

You shoulda done this yesterday  
So go and get it off your chest today or feel a sense of shame  
Say the truth, you'll be sent to stage

Say too much, and you get sent away, so now there's less to say  
Saying everything you feeling beneath  
Being unapologetic is a quality trait  
Start telling them the shit that you really believe  
And go fuck what they want you to say

If they don't  
Like the way  
You think that much, then you should  
Tell them all to fuck themselves  
And if you  
Think that I'm  
Still holding on to something  
You could go and fuck yourself

Everything you think, you overthink  
Thoughts make your head spin till you throw 'em up, fend off  
Everybody that you can and, keep it arm's length 'cause  
You're worried that your old girls know too much  
Playing so defensive that you can't rebound  
Put up all the walls until you can't see out  
I know you wanna party and fuck till success  
But you can't have a house, and forget the tea towels  
I know you're not used to it yet  
You got some losing to do before you can do it your best  
Believe that you are the man, uh  
I just had dinner in loafers, I used to shoe-goo the Vans  
And that's wear from all the roads I've run  
And friends I left behind  
Now, my phone's riddled with texts  
I never read with no reply

I wrote this verse to  
My old self so we could talk again  
Make sure you love your heart  
And trust your gut, it's starting to make sense  
Go and tell them all the  
Things you know you really do believe  
And go and fuck the things  
They want you to say

If they don't  
Like the way  
You think that much, then you should  
Tell them all to fuck themselves  
And if you  
Think that I'm  
Still holding on to something  
You could go and fuck yourself
