

Holding On

360

Sometimes [?]
We are holdin' on
We are holdin' on
[?] the moon
We are holdin' on
We are holdin' on

I been down, I been out, I been dead
Now I'm out [?] flex
So I run with a cross on my chest
This is me sayin' bye to my
Flesh

Don't lose hope
That's been the thing that I do most
Keep on goin' out of comfort zone
And you headed to a place that few go

When I know that I'm about to do something great
I feel the urge to go away
Now I'm about to go up again
But won't be lead to go numb the pain
Understand when you take a shot
Make the most when that comes your way
I'm always known to go big or home
About to show you that nothin' changed
(Holdin' on) This is me on that healthy tip
Make the most of my healthy and family
Redefinin' what wealthy is
Understand that it's up to Him
He decides what your value is
He the one who gone help you win
When there's no escapin' the hell you in
Just that grave
Get tats made the exact date
You made mass changes and found faith
But it's happening, and-

And you headed to a place that few go

That was the place that I got

Dreamt of a life got right on
On the journey to find me
I didn't know that I'd find God, but I'm glad I have
Asked a lot and He answered back
To obsessed with this random crap
Thought my work was in platinum plaques
And don't amount to the fans I have
He got this
Put Himself where that cross is
Paid a price for our way of life
And you won't believe what that cost is
