

We might have lost control  
See the writing's on the wall  
See 'em all try to hide it from us all  
But we might've lost it all  
And we need to see the light  
I see all the people read the signs  
Don't know how to read between the lines  
We gotta heal this planet  
That's the way that I feel about it  
It seems that we're gonna kill it now  
But how you expecting to live without it?  
Some say we're in code red  
Some say they're thinking that it can't stop  
I don't think that it might go wrong  
At this rate I'm thinking that it can't not

Love got us through the storm  
Where we fell across for that high price built inside  
Keep, keep me alive  
Keep, keep me alive  
Love got us through the storm  
Where we fell across for that high price built inside  
Keep, keep me alive  
Keep, keep me alive

It ain't about global warming  
That that ain't the only warning (warning)  
It's about the road we on  
We gotta figure out what's most important  
It ain't about a total score and  
It ain't about us owning more things  
If only we could go beyond our overall  
I wonder when we might realise  
Stop believing these real lies  
At this rate that we kill and we fight  
I'm wondering, "will we survive?"  
See? This is the scene of the crime  
We need to be bleeding it dry  
Where evil is winning and people  
Are dying and pleading to keep me alive

Love got us through the storm  
Where we fell across for that high price built inside  
Keep, keep me alive  
Keep, keep me alive  
Love got us through the storm  
Where we fell across for that high price built inside  
Keep, keep me alive  
Keep, keep me alive

Yo, I'm thinking it's time we left  
'Cause not much time is left  
And I don't want to die just yet  
'Cause I know a lot of life is left  
And I'm needing to find my breath  
Right now, we're reaching the final steps  
Soon enough, you're going to find me dead

With no one taking the time of death

Love got us through the storm  
Where we fell across for that high price built inside  
Keep, keep me alive  
Keep, keep me alive  
Love got us through the storm  
Where we fell across for that high price built inside  
Keep, keep me alive  
Keep, keep me alive
