

## One of the Lonely Ones

.38 Special

She once hoped to love again  
Hard to cope she remembers way back when  
A time in her life a man left her lonely  
She stops to wonder what it's all about  
She needs a lover but still has her doubts  
She's on the inside lookin' out

She's one of the lonely ones  
Broken heart but she don't let on  
She's still lookin' down, don't want to fall  
One of the lonely ones,  
Wastin' tears as the years roll on  
The time passes slow when you're lonely

She stares where she saw him last  
Sees his face in a photograph  
It's all in her past, can't let it go  
It starts her thinkin' how it might've been  
They never thought it could ever end  
She's on the inside lookin' out

And when she tries to sleep at night  
She reminisces when he held her tight  
He's no longer there, he's nowhere in sight  
There's certain words she should've said  
Now she's dreamin' alone in bed  
She's on the inside lookin' out

She stops to wonder what it's all about  
She needs a lover but still has her doubts  
She's on the inside, inside lookin' out

[Chorus]
