

Can't Show Love

38 Spesh

Huh, ayo
To all my hustlers: get your dream on
That's the team song
For those who took trips
Find plugs and put their team on
We sold drugs to our moms
But ain't mean home
When you broke and fucked up
It don't seem wrong, huh
That was me in the alley
Now I'm shipping europeans to Cali
Started at the bottom
Used to pump baggies
Now I'm pullin up foreighs like a truck-rally, nigga
What could you say to me - don't play with me
A 9 to 5 slavery streets educated me
Invested faithfully no the feds investigated me
I started a bakery and a collection agency
I'm ballin' with no team and no rings
But still draw things you don't seen in your dreams
A hustla: I know kingpins and know fiends
Credit so clean but cars got no blinks

Everybody need somebody (somebody)
That's why I keep it real with everybody (everybody)
Fuck with me and I'ma kill somebody (somebody)
You can't show love to everybody (everybody)
You can't show love to everybody (everybody)
You can't show love to everybody (everybody)
Fuck with me and I'ma kill somebody (somebody)
'Cause you can't show love to everybody (everybody)

Ayo, now I'm just tryin' keep a low identity
And load artillery for those not feelin' me
Waiting on a Motherload delivery
I saw so much white girl
I might vote for Hillary
Huh, I'll show them how to breathe under water
Nigga, squeeze at your daughter
When your sleaze cross equator
I used to coup keys from OGs out of Florida
My ex mad 'cause I ain't got no reason to call her
I know, she frustrated 'cause she my last favorit
But we can still make a movie if it's X-rated
She looking for me and a nigga that she just dated
It's hard dealing with a fact, that your ex made it, TRUST

Everybody need somebody (somebody)
That's why I keep it real with everybody (everybody)
Fuck with me and I'ma kill somebody (somebody)
You can't show love to everybody (everybody)
You can't show love to everybody (everybody)
You can't show love to everybody (everybody)
Fuck with me and I'ma kill somebody (somebody)
'Cause you can't show love to everybody (everybody)
