

## Crowned King

38 Spesh

Huh, make sure y'all play this shit loud, this motivation, to get to the bag, man, no matter where they put me, you know I'm sayin', it's just some hustla shit, let's go, huh

Ayo, I found a way to conquer my goals soon as I came at it  
And I don't want that bitch if a lame had her  
We ain't cut from the same fabric  
I'm in a mansion with two bitches that both got my named tatted  
I was raised by cane addicts  
Cause brain damage, I refuse to follow the same patterns  
You can give your all to the court  
But it ain't matter if you lose your life like hanged [?], huh  
Too many thoughts cut short  
Lost Ford?, they had the hood in a uproar  
I seen niggas duck low  
If you a rich nigga sittin' in prison that mean your luck [?],  
huh  
What would I give a fuck for?  
It's six bitches in my truck and I already fucked four  
I had chips for this rap shit  
A young fly nigga with a bad bitch

You know, sometime we don't know where we go and we just go, you know, and for that reason...

I asked God take the wheel 'cause I don't wanna steer us  
In the wrong direction is suspected, niggas fear us  
I think about the time that gave sticks and I tear up  
I still got warrants for some shit I need to clear up  
But, I'm on the run 'til they catch me  
I'll make 50 million on this run if they let me, huh  
Who wanna bet me?  
My phone's right, only get one life, make sure it don't correct  
me  
I took care everyone except me  
If my prayers ain't answered, would this gun protect me?  
Only competition is the man in the mirror  
Had a blurry vision now my plans gettin' clearer  
Back when T.I. was a rubberband wearer  
You can see why I was the man in that era  
Plug look like Antonio Banderas  
Kids got a huge portfolio 'til they hear it  
Huh, we passin' down things  
This the responsibility a child brings  
Huh, these some wild things  
I did it more than once, that's how I was crowned king  
I did it more than once, that's how I was crowned king  
Been livin' like this before I had chips
