38 Spesh

Uh

Uh-huh, my name Grafh, ho

Team Bang Dope Gang, ho

Trust

Snakes, I chop 'em in the grass

Get the whole thing, fuck choppin' it in half

I never learned how to make a dollar in a class

Stick up kid tried to line me, my shotta shot him in the mask

I box and then I jab

I shot the fed, then I shot 'em, then I stab

He tried to slide in the Uber, my shooter shot him in the cab

Made a profit off a pocket full of tabs

The blood on my money, so when it dry, I got a pocket full of scabs

I'm Walter White, cookin' the product in the lab

I'm a hustler, so I'ma still sell you the product if it's bad

I conquer then I blast, I'm Donovan McNabb

My bullets'll knock him in the past, he couldn't be hoppin' in the bath

He dirty, yes, man

My price range is out of your press band

Bird in a bread pan

Pot Redman, with the art that I'm Rembrandt

Infrared beam on your sweat gland

Few things you gotta accept, man

Can't give a nigga dap with your left hand

You can't hold your skull together with a sweatband

And you'll only survive when the lead jam

Nigga, God bless you

Car stereos, homie, cut them cameras off

Just tryna get up off the ground like Earl Manigault (Goat)

A gram of soft make your jaw lock

One with these mechanics like you met me at a car shop

Headline a seam, put that beam on his bald spot (Beam)

Smokin' out a turkey bag, shit look like when the fog drop

Hit the lights, send a kite to my dogs out of they element

Cocaine really ain't the same 'less you inhalin' it

Dope game, niggas taught it to us, why you tellin' it? (Why?)
