

Ayo, my weed smoked louder than ever somewhere nice  
Where one way flights are thousand or better  
When you broke they acknowledge you lesser  
Back home got a house full of hoes like I was Hugh Hefner  
Probably be King Solomon record 5000 wives  
A thousand concubines is how I get pleasure  
Take trips to islands for weather  
I'm in the sand on foreign land like a crocodile in the desert  
Highly respected for talent and effort  
The child of a peasant grew to be king from dollars invested  
I connected with diamond collectors  
We dropping jewels while you broke and you worry about finding investors  
Two lawyers, Thomas and Trevor  
Ten grand and piece retainers to cover my wireless endeavors  
See, I don't got a style you could measure  
Top scholar college professors know my verses is valuable treasure  
Ever been side a room with a lot of fumes?  
Fiends try and find solitude from inside a spoon  
And they only sleep five to noon I supply the goons  
Me in the streets it's like the bride and groom  
Had to marry white but I heard that bitch carry life  
Left her for Mary so I married twice known for rocking legendary ice  
Big shit can't even lift my wrist so I barely ride

Money  
Take it out the bag  
Put it in the safe. The drug  
Take it out the pop  
Put it on the plate. Guns  
Take it out the drawer  
Put it on your waist  
Family, make sure the doors locked for you  
Leave the plate. Money  
Take it out the bag  
Put it in the safe. Drugs  
Take it out the pop  
Put it on the plate. Guns  
Take it out the drawer  
Put it on your waist  
Family, make sure the doors locked for you

What I whisper is chosen  
Scriptures are golden like Christopher Nolan  
Picture me rollin and whips to the stolen  
I put your name on every slug in its clip that I'm loading  
Ripped through your clothing like rifting with Hogan  
The friction with Logan get rich as the slogan  
My heart is dark, malicious and frozen  
Crossing lanes in the Flying Spur  
I'm whipping DeRozan, sipping Roskov and they shipped 'em from Poland  
Ruled with an iron fist that's if you opposing my position as Sultan  
What I spit is insulting  
You ever seen a headshot? that shit is revolting  
No exit wound when the head balloon  
See what you saw was automatics yelling  
What you ain't know was the force of them hollow tips  
'Ll cause traumatic swelling, fanatic felons ducking feds and attics

Thousand dollar steaks were my bread and salad killers with expensive pallets

20 on the Giants and ten for Dallas

A rented palace with five pit bulls to pick up the scent of malice
