

Fight For Love

38 Spesh

I burn blocks in the Y community
I turn opps into opportunities
A snitch was a real nigga that turned cop, now he got immunity
We vibin, we got unity, we robbin, y'all know I first start when you rock je welry
Stop, we ain't concern much, he in the locker
Reason it's a lie cause the key ain't turn much
He workin', he workin', but he ain't earn much
You following your OG, led you to prison and he ain't learn much
Ice in my vein, I could grab fire, I wouldn't burn much
If I got bit by a vampire, I wouldn't turn much
Gangsta, hey papi, I'm heavy sumo, how many things have for you know, it ain't never uno
Whatever you said is never true though, you forever culo, forget it puto, yo u cherry hugo
Demon, my Dominican plug, that nigga look like he left the Manudo, so many plugs, I could turn BET into Telemundo
Dog food, I fed Cujo, Rolex, Hublot, price set too low, semi-tech too low
I'm the best connect you know, I get it to you
I whip it stiff as Medusa, then stick a brick in the juicer

God bless the man with the baggage to fall
Weight of the world on my shoulders will never fall
I had it, who the fetch the dog on call
Last man standing man, win lose or draw
Nigga I fight for everything I love
I fight for everything I love
Nigga I fight for everything I love
I die for everything above
Talk to me, wassup

Look, I burn blocks and it stop the unity
I turn opps into opportunities
Y'all chose violence and got eulogies
When y'all stop trying to stop scrutin-
me, I usually got cold cuts, charcuterie
Musically, you're lying and say I'm lying, it's lunacy
Truthfully, no schooling, these rappers dying from truancy
Island boy, beautifully, how's your party, ain't new to me
Welcome to the jungle, don't need Safari to Google me
I'm bomb, give me my space, Tom, you're losing me
Too much Uncle Tom and then Tom Fuller, what time is we on
Star in the corner, it used to be the feeling, you're feeling like F your feelings, my only feeling is mutually
It's you or me, proceed with caution, if you was me then you can read the signs and remain silent, if you were G
No need to comment if you agree, stop pushing me, I'm dope as push a T off the C as P, oh I'm pushing P
You push the lead, time to face the face in the vanity
Mirror couldn't be clearer, this the face of insanity
Can it be, did he lose his faith in humanity or did he do a biggie by putting faith in his family

I got a head full of problems and my back against the wall
Bet against me that's a problem, I might slip but never fall
We got here from the bottom, y'all was never worth the cost
Middle finger just because, pick a side or F them all

Nigga I fight for everything I love
I fight for everything I love
Nigga I fight for everything I love
I die for everything above
Talk to me, wassup
