

Honor And Glory

38 Spesh

My bars deeper than a Harvard Teacher
A [?] thinker, that's why we related like a father feature
I congregate like a honest preacher without a artist feature
I concentrate like a college speaker
Avoiding snakes and the bottom failures
Who playing follow leader?
I'm here for change like a [?]
They showing hate so they heart is weaker
And make it hard to reach em
I motivate like Condoleezza
Rappers' image make em so convincing but there's no conviction
I school a hard knock with no tuition
I follow codes of the old tradition, so if you witness
You feeling every sentence like a court conviction
I graduated from the stove and kitchen
I had smokers itching, breaking coke down on broken dishes
While fiends battle with their coke addiction
I had motion signals, facing trial with no co-defendants

It's honor and glory
'Cause love don't last long
You're honoring jewelry
They singing a sad song
They telling me story
Whenever you pass on, you wasn't the first one
You won't be the last one

It's honor and glory
'Cause love don't last long
You're honoring jewelry
They singing a sad song
They telling me story
Whenever you pass on, you wasn't the first one
You won't be the last one
It's honor and glory

Ayo, this is me, take it or leave it
As you can see playing a [?] done affected my way of thinking
You can brag but you chain swinging
'Cause I helped take chains off of niggas like AB Lincoln
And they wondering why we ain't speaking
When they fell, they up and left, I wanted the same treatment
Heard your response, became speechless
I can tell from your views we ain't schooled from the same teachers
Pops left, moms picked up the slack
She picked up extra shifts, I picked up the crack
Y'all were stressed by the bitch, I told my bitch I need back
You rob a nigga for a chain, what type of stick up is that?
Bring a knife to a gun fight, this is a fact
If I ever break a knife, it got a pistol attached
Something big that'll clap bullets, sniff off your hat
Or bullets sniff off your whip like it's fixing a flap, motherfucker

It's honor and glory
'Cause love don't last long
You're honoring jewelry
They singing a sad song

They telling me story
Whenever you pass on, you wasn't the first one
You won't be the last one

It's honor and glory
'Cause love don't last long
You're honoring jewelry
They singing a sad song
They telling me story
Whenever you pass on, you wasn't the first one
You won't be the last one
It's honor and glory
