

Interstate

38 Spesh

Ayo, my first time on the road
I had to be like 17, 18 years old
Nah mean, I was with the older head
Older head put me under their wing
Knahsaying they showed me a few things, I learnt a lot
The most valuable thing I thing I learnt
Was that, in order to make a difference
You gotta travel outside of your environment and come back

Ayo, we ride foreigns, they was never Toyotas
Called mine but I'm not the registered owner
I told her "Stay in the right lane next to the shoulder"
We gon' get there, say a prayer if they pull us over
Used to ride with it, in the trunk under the doughnut
Ain't know much, we was young kids, now we grown-ups
I'm older, I move different due to exposure
Got a stash in a button on the dash, the controller
Pops wasn't around, them cowards never showed us
It's all good, I get the powder before it's over
Got all my power from mixing powder and soda
And my wheels ain't been basic since I was in a stroller
Had a couple of choices like college, diplomas
Instead I'm surrounded by narcotic aromas
Had this one chick that would drive it from Minnesota
Never thought a female would end up my realest soldier

Huh, and I'ma get rich on this interstate
Just me and my bitch on this interstate
I started with a brick on this interstate
Got a house and a few whips from this interstate, huh

Uh, car full of winners on this interstate
Just me and my nigga on this interstate
We tryin' to see them figures on this interstate
Gotta keep a finger by a trigger on this interstate

My nigga 38 call like:
Che, I need you to bring it home
I got some work for you, but first take me off speakerphone
Go somewhere where we can speak alone
You trying to make some cash?
That's like music to my ears, I'm trying to sing along
But this plan consists of a lot of dope
Make sure you're ready before you tell me yes
'Cause this is not a joke
I replied like: "Yeah, I got it, bro!"
If they pull me over, just have a plan B like the condom broke
I ain't trying to be sleeping up on no top bunk
On this interstate, I pray I don't see a cop once
Ayo, don't worry about no lawyer or bail
You know I got funds
Is you gon' ride with me?
Yeah nigga, I'm calling shot gun
Let's go!
'Cause ain't no job for me too big to complete
Say it costs to be a boss, shit, I wish it was cheap
He just need a ride or die chick to fill up the seat

If we hit a fork in this road, we pick that shit up and eat
Nigga!

Huh, and I'ma get rich on this interstate
Just me and my bitch on this interstate
I started with a brick on this interstate
Got a house and a few whips from this interstate, huh

Uh, car full of winners on this interstate
Just me and my nigga on this interstate
We tryin' to see them figures on this interstate
Gotta keep a finger by a trigger on this interstate
