

You see you buy the watch now, and you bust it down later  
That tell me you know nothing 'bout paper  
Spesh got that nigga don't fuck around paper  
Bitch stayed down and stuck around paper  
Eventually we rise  
But y'all won't be happy 'til my entity's demised  
And enemies colliding  
Literally it's pride if they come for me  
These bullets is gonna accompany that misery inside  
When they asked for help, you know simply I tried  
When I first said no, you know, niggas be surprised  
But I don't feel sympathy for guys  
That's older than me, and still need to be parentally advised n  
igga  
And I don't care what your man making  
What he spent on rent I spent for landscaping  
Real shit, that's real rubber band language  
Understand I made a couple hundred grand off my fan pages  
I came up handling big guns  
That's where I got my animal sense from  
My accountant handle my books with a manual system  
That's how I keep track of my annual income  
Y'all niggas need to stop it, real shit  
With them bullshit 36 millimeter watches  
Yesterday I made three deposits  
One in the bank, the other two was inside sneaker boxes  
I find myself not being conscious  
Got three advisors, they all say they seeing progress  
But for some reason feds want me demolished  
For feeding knowledge to the kids in the streets 'bout economic  
s  
You either got it or you don't nigga  
And I was told never front narcotics to a broke nigga  
38 I'm the GOAT nigga  
Might see me in a nice peacoat with some loafers nigga  
Trust!
