You the type to change-up on me soon as you get 'round company  
Lookin' for attention speakin' on business publicly  
And suddenly I'm 'posed to forget it like you fuck with me  
When the knife you stabbed me in the back was still stuck in me, nah  
'Cause that'll only make us both fools, Yacht-Master boat shoes  
We bring up money and y'all get emotional  
The next few years I'm 'bout to coast through  
I get it tourin', I used to get it scorin', like Hakeem makin' post moves  
The nigga they never say hesitated  
My pedigree never waver, I'm résumé decorated  
All my dead homies in ghettos of heaven waitin'  
Since I met the streets, we could never stay separated  
What you know about two snitches on separate cases?  
Get a light sentence off your lawyer reputation  
I spent days in my cell, just meditatatin'  
Love powerful, so if you don't mean it, then never say it

Love don't live here anymore (Anymore)  
Love just walked out the door  
No more L-O-V-E (V-E)  
The ones I thought loved me changed on me (La la la)  
Love don't live here anymore (Anymore)

Yo, look  
I come from the jungle 'jects  
Broadway where my sisters and mothers slept  
They got so cold at times it used to feel like the covers wet  
You lazy niggas gotta separate from the ones with checks  
Three steps ahead, beat 'em to the punch so my knuckles wet  
My intuition took me on a journey to get the riches  
Took a risk, you gotta test the waters to swim with fishes  
Don't make love to that man if he ain't yours  
Don't give him kisses, could never claim him  
I wouldn't post that boy if that nigga's missin'  
My style is rugged, first mixtape the whole town was buzzin'  
Always act off of logic 'cause emotions could cloud your judgment  
My need for figures, busy, it's hard for me to be with niggas

Real shit, I almost lost it all tryna please a nigga  
Speak 'bout what I'm livin', only reach for what is given  
A real leader put his people in position  
Respect the only thing that can be earned  
The power and knowledge 'cause even teachers gotta learn, nig
