

(La musica de Harry Fraud)

Ayo, with white I had to travel like a pill bro  
When the price is undervalued you never know the real sum  
Slow down the cash will come  
Last thing you want to do is move fast and feel dumb  
I don't stress when the bills come  
My lawyer said "Never be in a rush to get the deal done"  
I had a mean coke and pill run  
I'm the transmission to the business, I'm the reason the wheels  
spun  
See, I started off real young  
And poor, now we on the same stores where we steal from  
Motherfucker, this is a real gun  
Extended clip ain't an instrument when I come with a steel drum  
Huh, you and your man both hurt  
I'm the boss and I put in the most work  
You niggas lost still standing on your old turf  
Yeah, you sold work but your stash never had a growth spurt  
Trust

Smoked out on the balcony  
Got word that enemies had enough of the attachments, how can th  
ey not be worried  
Closed the book on them, shark story  
Now we in Miami, bottle popping club story  
Shit was like some Super Bowl glory  
When they unloaded my Ferrari off that delivery truck right bef  
ore me  
Dream realized and I do that all the time  
Got an antidote by this stagecoach parked in the lot  
Use Google if I say something new to you  
Maneuver coupes  
She been there, she like roller skates and hula hoops  
I be through there when I get through up here  
Believe me, boo, don't ask me when I be there 'cause that's pre  
ssure  
I don't put that type of shit on you  
Professionally smooth  
But it's effortless, fool  
It's especially cool at night, break out the wool  
Iceberg sweater in my December jewels  
You niggas was never them dudes

You niggas was never them dudes  
Like, not ever, not even when you was two  
Was you ever?
