

## My River

38 Spesh

Ayo, check it  
I give em speeches, the road can be a little misleading  
Just make sure your name on the rental agreement  
And if you get caught, might sit for a weekend  
If the judge give you bail, you hit it, you leaving  
Real nigga treatment, the pain I felt done killed a nigga  
The blood, sweat, and tears I dropped done built a river  
My childhood friends is locked, I chilled with killers  
If you old and you broke, you dealing with guilt and bitter  
I been up, trips out west middle of winter  
Give us an address, and I get 'em delivered  
Car not a rental, bricks fill up the fender  
A nigga from the crew steal? We kill every member  
A lost a few mil to hidden agendas  
One time the driver never came back from Denver  
That was a bad hit, admit I was injured  
But I built a good rapport with the plug, he remembered  
He remembered all the things I got rid of  
The reason he lit up, all I need is a lender  
Receiver and sender, it's a difference between achievers and sp  
enders  
We put keys in a blender  
We was them niggas with heated tempers  
Going home and coming in, repeat offenders  
I meet a chick, then I reinvent her  
I pimp her to a successful hoe, can't be a Brenda  
Now where my pimp cup?  
Told the bitch, "I ain't listening to shit, I just instruct"  
Why these niggas all bent up?  
Is it cause I got the M6 Plus Class and a Benz truck?  
Now they wanna stick us  
When your casket shut, don't wanna hear that innocent stuff  
I see the future, I sense stuff  
Problems never meant much, we roll on you like a lint brush  
Trust!
