

# Bipolar Love

3Breezy

I just wish that you ain't go and play them games like you did  
I just wish that you would tell me that it is what it is  
Left my heart so cold, but it's all cool I'm back on my shit  
And I knew that life get hard, but I ain't think it get like this

Said every minute, every second, every day, I  
Every minute, every second, every day, I  
I try to leave it in the past to make my way out  
Try to keep my circle small, but it don't ever stay wrong  
Putting up a fight, no  
Said I'm too strong, can't let them see me cry, no  
I ain't gon' lie, it eat me up inside, no  
The long days end up sleepless nights  
So if you say that you love me, then say it like you mean it baby  
Cause if I say that I love you then there ain't no other meaning baby  
So if I give you my heart then I trust you say you can keep it baby  
Emotionally scarred, don't play around, said I'm a demon, aye  
I may need some fixing, I may need some love  
I may need the deacon, I may need these drugs  
Your love is my weakness, got me in the deep end  
Can't swim so I'm sinking

Sometimes I wish that I never really had a heart  
With all this pain I been dealing, healing these battle scars  
No you ain't innocent, lil baby know you played your part  
Bi-polar love, bi-polar love

(Bi-polar love, bi-polar love)  
(Bi-polar love, bi-polar love)

(I may need some fixing, I may need some love  
I may need the deacon, I may need these drugs  
Your love is my weakness, got me in the deep end  
Can't swim so I'm sinking)
