

Broken Insecurities

3Breezy

I know you so tired of feeling alone
I know that you hurting from all his wrongs
And we know that it's plain to see, say this a change for me
Don't wanna see you hurtin' no more, come and put the blame on me
Even when that fucked you up baby imma fix it
Said you like your body, baby come here let me kiss it
I'll be the aid to all your broken insecurities
And if you can not get enough get some more of me

If your looking let me help you and find your worth
That nigga crazy, leave em in the dirt
Cry to me a thousand tears and imma fill em up with love
Baby just take your time if you're not ready to open up
You know I'll be by your side, I won't leave you traumatized
Down to catch a homicide, see the look that's in my eyes
Told me that he put his hands on you, I bet he think he tough
Won't come and put his hands on me, I see right through the bluff
He called you out your name, he steady playing games
You know I don't condone none of that shit that nigga sayin'
Yeah he might be a dick to you, but he a bitch to me
Yo pussy on the block and I say that shit disrespectfully
I know your paranoid, don't wanna love again, but let me be the reason that you love again
I'll be your lover and your best friend
You be my smith I'll be your Wesson

I know you so tired of feeling alone
I know that you hurting from all his wrongs
And we know that it's plain to see, say this a change for me
Don't wanna see you hurtin' no more, come and put the blame on me
Even when that fucked you up baby imma fix it
Said you like your body, baby come here let me kiss it
I'll be the aid to all your broken insecurities
And if you can not get enough get some more of me

I know you're so tired of feeling alone, I know that you're hurting from all his wrongs

And we know that it's plain to see, say this a change for me
Don't wanna see you hurtin' no more, come and put the blame on me
Even when that fucked you up baby imma fix it
Said you like your body, baby come here let me kiss it

You get some more of me
Baby, you get some more of me
