3Breezy

You know my bitch the baddest  
I get it wet, tsunami, when I touch it, automatic  
You ain't got no competition, bae, you in a different bracket  
And you got that fuego, so you know a nigga braggin'  
Tell me what you been doin', I'ma pull up to your city  
We have fun in the night, but in the light, you so pretty  
When I tell her I miss her, she say, "Baby boy, come get with me"  
Ain't fuckin' off on you, I fell in love with the realest  
Don't condone violence, but come to you, shit get gritty

And she like, oh (She like)  
Bad and bougie, she like everything nice (She like everything nice)  
Bae, leave the purse 'cause if you like it, I'll buy it (Like it, I'll buy it)  
Mama so fuego, so I put her in ice (I put her in ice)  
Feelin' like the man, we locked in, we locked in  
I be with the gang, bring your twin, bring your twin  
Had to put a shot above the rim, 'bove the rim  
Feelin' like I'm Bryant, for the win, for the win  
Pick you up, you comin' over, she love when I bend her over  
Dive inside your waterpark and we gon' ride that rollercoaster  
Me and my lil' yay-yay, put me on, she from the Nola  
Sweeter than a Snicker but her heart colder than Minnesota

You know my bitch the baddest  
I get it wet, tsunami, when I touch it, automatic  
You ain't got no competition, bae, you in a different bracket  
And you got that fuego, so you know a nigga braggin'

Ain't fuckin' off on you, I fell in love with the realest  
Don't condone violence, but come to you, shit get gritty

And this ain't do or die  
But you ain't leavin' me, baby, that gun up on my side  
Get hypnotized when I'm starin' in them ocean eyes  
So tell me, baby, sugar, sugar, when'd you get so fly?  
You know I know you fuck with me  
And can't no nigga fuck with me  
Your last, he knows what's up with me  
Fuck fifty, keep a buck with me  
Love when I keep you company  
And I ain't never bite my tongue, hope they know what's up with me  
I ain't never backed down from nothin'

You know my bitch the baddest  
I get it wet, tsunami, when I touch it, automatic
