

Let It Go

3Breezy

Tonight we party
I know you hurting I'm sorry
It's time to catch a new vibe
Wan live a new life
Ain't no need to cry

So leave the past up in the past and make new memories tonight
I went and bought ya favorite drink you love the Hennessy on ice
I tell em play your favorite song and watch it brighten up your mood
Baby please don't feel ashamed call your friends let's turn up too

Let it go
Cause tomorrow's
Always yours
Never stress what you
Can't control
And I can see it way deep in your soul
Use to fighting and fighting, it's time to let it go

And I can see it in her
She got a heart just like a lion
A little bit of crazy with a little bit of whining
But that's the perfect mix she came around at a good timing
And I can tell she kinda shy so I had to break the silence

I said "lil mama what you doing where your man at?"
She say "these dudes ain't never good and I can't stand that
I give my heart to the wrong one think it's a problem"
"And once I realized it's too late no I can't stop them"

I feel your pain trust me I've been through that way in life
To maintain when the odds ain't never weighing right
As time go watch the feelings start to fade a bit
My nana always told me "this life is what you make of it" so

Tonight we party
I know you hurting I'm sorry
It's time to catch a new vibe
Wan live a new life
Ain't no need to cry

So leave the past up in the past and make new memories tonight
I went and bought ya favorite drink you love the Hennessy on ice
I tell em play your favorite song and watch it brighten up your mood
Baby please don't feel ashamed call your friends let's turn up too

Let it go
Cause tomorrow's
Always yours
Never stress what you
Can't control
And I can see it way deep in your soul
Use to fighting and fighting it's time to let it go

And we dance like the world is ending tonight it's just me and you

Tonight we party
