

# Never Have I Ever

3Breezy

Oh  
Oh  
Oh  
Oh

Never have I ever broken trust, I'm all about loyalty  
Never will I back down from war, there ain't no hoe in me  
I can't let the devil get control, there ain't no holding me  
Keep my brothers 'round, but my enemies stay close to me  
Said never have I ever put my love into a bitch  
Only two things that I trust has been my money and this blick  
Said never have I ever crossed sides, that's a no  
Said never have I ever moved foul, get 'em gone

Said never will I let up  
Praying it get better  
Grandma say "Keep your head up"  
And there on the block we play with Glocks and Berettas  
Murder on his mind, he send shots, tell him catch up  
Said never can I lack  
Gotta always tote  
All about my money, I ain't never going broke  
Said never can I satisfy the ones that doubted  
Won't go against the grain said bet I'll take that as a challenge  
All about a backend, band, woah  
Spin around the block, we ride slow  
Screaming "RIP" he died slow  
Where I'm from it get cold, blood soaking up the snow  
Fell in love one time, I ain't want to let her go  
She kept playing with my heart, that shit was fucking with my soul  
You always gave a little less, but then you want a little more  
So never will I ever fall in love no more

Never have I ever broken trust, I'm all about loyalty  
Never will I back down from war, there ain't no hoe in me  
I can't let the devil get control, there ain't no holding me  
Keep my brothers 'round, but my enemies stay close to me  
Said never have I ever put my love into a bitch  
Only two things that I trust has been my money and this blick  
Said never have I ever crossed sides, that's a no  
Said never have I ever moved foul, get 'em gone
