

## Don't Wait

3LAU

We ran away from everything we knew.  
You gave your home and I gave my hope to you.  
So take this if I don't know we can't stop now (we can't stop now)  
And we're through the cold (I'll follow close)

Don't wait for me  
Don't wait for me

Don't wait, cause I will travel through to talk, for me  
Don't wait, and I will fly across the world for you, for me  
Don't wait, and I will dive into your heart, for me  
Don't wait, and I will die to bring the stars to you, for me
