

Easy

3LAU

Something 'bout the way
That you got my heart surrounded
It's a little strange
Don't know to feel about it

I try to fight it
I don't understand
How I've been feeling
So safe in your hands
When I'm falling
It's so foreign

How'd you make it look so easy
Feel like I'm barely breathing
And you're just diving deeper

Oh, oh

How'd you make it look so easy
To say you're never leaving
I think I must be dreaming

Oh, oh

Wish I could say
We're both the same

How'd you make it look so easy
To say you're never leaving
I think I must be dreaming

Oh, oh

Wouldn't be afraid
If I hadn't been where I been
Do you have the patience
Hoping you can find a way in

I try to fight it
I don't understand
How I've been feeling
So safe in your hands
When I'm falling
It's so foreign

How'd you make it look so easy
Feel like I'm barely breathing
And you're just diving deeper

Oh, oh

How'd you make it look so easy
To say you're never leaving
I think I must be dreaming

Oh, oh

Wish I could say
We're both the same

How'd you make it look so easy
To say you're never leaving
I think I must be dreaming

Oh, oh
