Everything

3LAU

Am I everything you want or just everything you wanted why
Said you loved me, we both know you lied
I can't be yours 'cause you're standing at my door tonight
And you won't look me in the eye

Am I everything you want or just everything you wanted why
Said you loved me, we both know you lied
I can't be yours 'cause you're standing at my door tonight
And you won't look me in the eye
And you won't look me in the eye
And you won't look me in the eye
And you won't look me in the eye

So I keep making the same mistakes
I should know better, better
But when we're face to face, yeah my mind keeps
Changing, don't know better

Am I everything you want or just everything you wanted why
Said you loved me, we both know you lied
I can't be yours 'cause you're standing at my door tonight
And you won't look me in the eye

Am I everything you want or just everything you wanted why
Said you loved me, we both know you lied
I can't be yours 'cause you're standing at my door tonight
And you won't look me in the eye
And you won't look me in the eye
And you won't look me in the eye
And you won't look me in the eye
