You gotta get up, get out and get something Get up, get up, get up, get up and get it You gotta get up, get out and get something Get up, get up, get up, get up and get it

You gotta get up, get out and get something Get up, get up, get up, get up and get it You gotta get up, get up, get up, get up Get up, get up, get up, get up and get it

It's all about money ain't nobody frontin'
I gotta go get it we gotta survive
Whether it's workin' a nine to five
Or ridin' the hustle I gotta get mine, bottom line

Most of my time I'm out here puttin' in work For all of my days that I run this earth I'ma make it count for what it's worth You never know about this life And the type of pain that it can bring

That's why you gotta get off of you're thing 'Cuz it ain't no dream and it ain't no game We so serious, dogg you know it don't stop I know time is the devil's workshop

See I do it I did it and y'all know that I'm wit it I'll give anything for passin' and take to it back A hustlin' little brother with crack But now I grind a little bit harder Harder my niggaz stories in order

See, it was hard for me momma My mother dropped in the water My sister was damn fast

Heather was right behind ya Cassie, that's my little sister My father loved you like the only child Funny, he ain't never seen my smile

Get up, get out and get something
Get up, get up, get up, get up and get it
You gotta get up, get out and get something
Get up, get up, get up, get up and get it

You gotta get up, get out and get something
Get up, get up, get up, get up and get it
You gotta get up, get up, get up, get up
Get up, get up, get up, get up and get it

You betta get on yo grind You betta go get it if you really tryin' to shine You betta be keepin' yo eyes on your prize at all times

Keepin' it real for my all of my thugs in the projects The niggaz that ain't got shit Not havin' this nonsense my niggaz

My momma said, boy if you ever wanna be anything Get off the couch and out my house, use your brain So I took heed and I jumped right up on my feet Got off the streets and I'll be in heat I'm laughing at police now

Coming to you like this
This used to be child, is now a grown man
Don't play with the wrong hand
But I never could quit 'cuz I'm playin' a strong man

Everybody got a point to prove You might as well start today Rather than puttin' it off tomorrow You're lettin' it slip away, lil' Lay, I parle

And get paid, and that's all And I creep and I rise, in yo eyes I still ball And stand tall with my chest

And my cheek to the sky I'm in it to win it my nigga believe it Until the day that I die, so come on

Get up, get out and get something
Get up, get up, get up, get up and get it
You gotta get up, get out and get something
Get up, get up, get up, get up and get it

You gotta get up, get out and get something Get up, get up, get up, get up and get it You gotta get up, get up, get up, get up Get up, get up, get up, get up and get it

Anything you want, anything you need You gotta get it, yeah and go get it Ain't comin' to you, you gotta put in your dues Show the world that you can do it

Don't let nobody hold you back So you betta get your hustle on Baby betta get your hustle on You betta

We some of the livest, you know
True thugs don't really mind to riot, let it go
They sayin' get up and get it
Yes we went and did it, you won't admit it
'Cuz you hatin', 'cuz you can't get it

Every since I was a young thug
Been creepin' showin' mo' love
Even when I got it you best to give it up
It's Cleveland, until we get what we want we ain't leaving
This is what we want with no chumps, please believe it

Get up, get out and get something
Get up, get up, get up, get up and get it
You gotta get up, get out and get something
Get up, get up, get up, get up and get it

You gotta get up, get out and get something Get up, get up, get up, get up and get it You gotta get up, get up, get up, get up Get up, get up, get up, get up and get it

Get up, get out and get something
Get up, get up, get up, get up and get it
You gotta get up, get out and get something
Get up, get up, get up, get up and get it

You gotta get up, get out and get something Get up, get up, get up, get up and get it You gotta get up, get up, get up, get up Get up, get up, get up, get up and get it
