

Black Hole

3OH!3

Hello yeah it's me again - no homo sapien
I'm an ancient alien - was sent to take your women
You could say we're winning - more than Charlie Sheen is
And don't get mad at me because your girl was on my dick,
You know that we're rocking the computer - Steven Hawking
And if that bitch hangs up on me again you know I'm walkin...
Like Christopher - never catch me kissin on the mistletoe cause
this is missile crisis time to light em up - GO

Cold woman - she sucked me in...
No air - and I'll never see the light again...

I fell into a BLACK HOLE...

Don't get angry bird like I just hopped out the pig pen
I'm used to havin hands on me - yeah you can call me Big Ben
It's time to get stupid - yeah it's time to get Kardashian
So pour that whiskey deep and hand that motherfucking flask aga
in
You're a massive BLACK HOLE - and you say that I'm the asshole
When I saw you at the last show - you were on me like a shadow
Up the creek, no paddle - tell my Mommy and my Dad
Oh I aint never comin back - she sucked me in a BLACK HOLE

Cold woman - she sucked me in...
No air - and I'll never see the light again...

I fell into a BLACK HOLE...
