Ill never hurt you

They say you'll do me wrong
They say I can't be strong
Are we the only one to

[All:] Can see what's goin' on?
They say that you and me
Were never meant to be
I wish that they knew about are love
How much you mean to me

I was the only one to ever wanna be
The kind of man to take your every love and be your favorite

Why don't they just try, try and realize that you make it
All right when you look in to my eyes

Wish they can see what you do to me
If they knew how I feel (I still love you)

They don't see what I see
They don't see you and me
They think I any made of crystal and diamond Rings
They need to realize
