

Gotta Have You

3T

It's Wednesday
The week is moving so slow going insane
When I think about my future there's a delay
Flat tires on my broke down car
I'm trying to get to where you are
Cause I know I'll be better

If I spend life I won't fail if I have you

Girl I, I've been waiting all my life
So there's no way it's gonna pass me by
I'ma put my heart on the line
I, I gotta have you
And I, I don't really know what else to say
Never thought it'd go this way
I know it's crazy but it feels so right
That's why I gotta have you
I gotta have you

So tell me
That you get the picture and you'll hold it down
Forever standing on my side
I know how you feel, I can read you
Please don't be afraid, have no fear

Cause I know I, I won't fail if I have you

Girl I, I've been waiting all my life
So there's no way it's gonna pass me by
I'ma put my heart on the line
I, I gotta have you
And I, I don't really know what else to say
Never thought it'd go this way
I know it's crazy but it feels so right
That's why I gotta have you

I know what's on your mind, I can read you
Please just understand that I just, I just gotta have you
I know what's on your mind, I can read you
Please try to understand I just gotta have you
