

I Do (The Wedding Song)

3T

Finally, that is what I said when I first saw you
Love is coming to my life, you inspire me
Everything is now complete
Someone must be listening to me

I can't believe what is happening to me
A simple love that is taking off of me
And now I know what it's like to be so deeply in love

So from this day on, I promise
I will love you endlessly
And if your world begins to crumble you can always count on me
I'll be your friend and your protector
Your supporter I will be
And I will cherish every moment
We are now family
Baby I do
Just know that I love you (I do)
I do

I'll be
by your side from this day on, don't worry
I'll provide for you girl and be a family
We got us and else's all we need

I can't believe this is happening to me
This kinda love has exceeded all my hopes and dreams
Let's take the time
Tonight is ours to celebrate our love

So from this day on, I promise
I will love you endlessly
And if your world begins to crumble you can always count on me
I'll be your friend and your protector
Your supporter I will be
And I will cherish every moment
And we are now family
Baby I do
I do
I love you girl I do
I do

I can't believe what is happening to me
I found a love that has exceeded all my hopes and dreams
Tonight is ours to celebrate
Now that we are one

So from this day on, I promise
I will love you endlessly (I love you endlessly)
And if your world begins to crumble you can always count on me (always count on me)
I'll be your friend and your protector
Your supporter I will be yeah
cherish every moment
And we are now a family
Baby I do (I do)
Love you, I do (I do)

Baby I do (I do)

And forever girl I do
