

Missing You

3T

It's been several years and although things have changed
I'm just sitting here thinking back on the days
The days I would look at you, you would look at me
We would just smile, yeah

See it all seems so simple with no worries or no care
Planning out our future dreams and the life that we would share
Now I wonder if you think of me
Do I ever cross your mind, your mind... Cause I'm

I'm missing you
I wish that you would call
Cause I'm missing you
And all of this time I've been missing you
I wish you were mine
...

We fell out of touch as the days passed us by
I tried to respect your space
I put my heart on the line
I never trusted letting you go and I know why
I'm forever missing you

As long as the sun sets and rises
Who cares about a star if it ain't shining
Remember if there's no you, there's no me
I can't survive
So I'll be forever missing you

I'm missing you
I wish that you would call
Cause I'm missing you
And all of this time I've been missing you
I wish you were mine

There's no other way to say it baby
There's no other way around it, no
I miss you baby, I miss you
God knows I'm missing you

When you close your eyes
Girl tonight
Just know I'm missing you
...
