

Sugar

3T

Come on let's fly away
We can just fly away
Come on let's fly away... Sugar

(Sugar...)

People always say I should run away
Even when I try I can't get away
Her loving makes me want to stay

Yeah, she's my sugar and I love her so
They say I'm addicted everybody knows
But I am happy when she's around me
When we're together it feels like we can take off and fly

(Sugar...)

The worse part is I know it's a big mistake
Honestly some habits are hard to break
It doesn't matter what I say she's in control
Just need a fix before I hit a low

Cause I am happy when she's around me
When we're together it feels like we can take off and fly
And oh I love her like no other
But I don't know how I can live without her in my life

Honestly some habits are hard to break
So hard to break, yeah

(Sugar...)

Oh, sugar why can't you just let me live my life
Cause I'm loving the way that it feels
Each time is our last until we blow it again
I'm up and I'm down, my world's turned around
All turned around

Cause I am happy when she's around me
When we're together it feels like we can take off and fly
And oh I love her like no other
But I don't know how I can live without her in my life
...

You are, you are
You are, you are
You're my sugar
...

(Sugar...)
