

The Story of Love

3T

Cold nights,
Rain pouring down
It's a dark time
Drifting around
She lives a hard life
And it breaks my heart
Knowing that I
I can't do my part
Have I failed a friend

I wish that I could call
But you're far away from home

If, if had a chance I would tell you
That you're not alone
I'm by your side
So, so don't let your mind
Think that I don't care

And it's hard for me cause
I know when something ain't right
You've got me up all night
And that's the way the story goes

The story of love
The story of love

And even one day when I'm old and gray
It's gonna be okay, I got you
Gonna be okay, I got you

So know in your heart that I'm here to stay
It's gonna be okay I promise
I got you, yeah
The story of love
That's just the way the story goes

With time as things settle down you will see
Times in life aren't always good
Never turns out like we think it should
That's why you find it more easy to breath

And it's hard for me cause
I know when something ain't right
You've got me up all night
And that's the way the story goes

The story of love
The story of love

This is some kinda game now baby
Still haven't heard a word from you
I'm trying to be strong
But what if I'm wrong
Maybe the issues deeper
Haven't slept and I'm going crazy
I'm concerned and I'm worried baby

My life isn't the same

That's just the story of love

The story

The story

When will you come back home

The story of love
