

# Acme Death Machine

3TEETH

Nothing inside  
Just bottom lines  
Yeah, I watched it consume every fucking mind  
There's no one driving  
No compromising  
Welcome to the death of every uprising  
There's no relief  
You'll pay the thief  
You own your life  
But you still sign the lease  
You won't be free  
I guarantee  
Nothing escapes  
The Acme Death Machine

Force tension, form velocity  
I become your god of entropy  
Source engine, code anomaly  
I control your frequency

In the stomach of the iron bull  
You exist as a source of fuel  
Your screams, your dreams are turned to steam  
And everything you thought was actually  
A world, a life, a source of strife  
Energy captured by design  
Kinetic powered death device  
In the cloak of a nine to five

Devoured by Saturnian teeth  
Burning lives like gasoline  
Devoured by Saturnian teeth  
Burning lives like gasoline  
The Acme death machine

Ash tendon blood amphetamine  
Welcome to your new reality  
Born aggression, thrown of fallacy  
Perma-cycle of hypocrisy

In the stomach of the iron bull  
You exist as a source of fuel  
Your screams, your dreams are turned to steam  
And everything you thought was actually  
A world, a life, a source of strife  
Energy captured by design  
Kinetic powered death device  
In the cloak of a nine to five

Devoured by Saturnian teeth  
Burning lives like gasoline  
Devoured by Saturnian teeth  
Burning lives like gasoline  
The Acme death machine

Demonic non-entities  
These systems managers

Carry out the incremental tasks  
That make the vast, complicated  
Systems of exploitations and death work  
Death machine  
Nothing withstands the Acme death machine

Devoured by Saturnian teeth  
The Acme death machine  
Burning lives like gasoline  
The Acme death machine  
Devoured by Saturnian teeth  
The Acme death machine  
Burning lives like gasoline  
The Acme death machine
