

Away From Me

3TEETH

I have a firm grip
On reality
I can strangle it
Any time I like
There is a purpose
When you look in my eyes
You can't handle that
I don't believe in your lie

I'm burning on the inside
Freezing on the outside
You can take it all away
But you'll never take my mind away
From me
Away from me
Away from me
You'll never take my mind away from me

I am the monarch
Of my own skin
You try and crack it
But I won't let you in
You can't handle that
I don't obey all your laws
And I'll dismantle it
As I tear down your wall

I'm burning on the inside
Freezing on the outside

You can take it all away
But you'll never take my mind away
From me
Away from me
Away from me
You'll never take my mind away from me

I'm burning on the inside
Freezing on the outside
I'm burning on the inside
Freezing on the outside
I'm burning on the inside
Freezing on the outside
You can take it all away
But you'll never take
My mind away from me
Away from me

Away from me
Away from me
Away from me
