

Chasm

3TEETH

"In what we are doing now
We are getting to a field of the world
That is neither organic nor inorganic
Simply, what it is
We don't know the contrast, just as
We don't know the contrast
Voluntary, involuntary
We don't know the contrast organically
Organically, organically, organically, organically
Organically"

Between the mountain and the fire
You have to decide
You either select the heaven
Or you select the fire
(Organically, organically, organically)
Between the mountain and the fire
You have to decide
You either select the heaven
Or you select the fire
Between the mountain and the fire
You have to decide
You either select the heaven
Or you select the fire (Organically)
