

## EXXIT

3TEETH

I see they're all the same  
I'll take one anyway  
Outside I'm just a slave  
Inside a burning liar  
I feel their God's will  
I'll take another pill  
Suppress my will to kill  
I'll set it all on fire

We hear the things they say  
It's all insanity  
You make your choice today  
It's exit, voice or loyalty  
We hear the things they say  
It's all insanity  
You make your choice today  
It's exit, voice or loyalty

I see we're all insane  
We'll lose it any day  
Straight face with crooked aims  
We watch them conspire  
You hear them pass a bill  
Rehearse your foolish drill  
Walk along your treadmill  
Until you lose desire  
Desire

We hear the things they say  
It's all insanity  
You make your choice today  
It's exit, voice or loyalty  
We hear the things they say  
It's all insanity  
You make your choice today  
It's exit, voice or loyalty

I've seen the way it all breaks down  
One big lie with a crooked gold crown  
Either kiss the ring or you better make a sound  
Exit through yourself or it's time to take your bow

We hear the things they say  
It's all insanity  
You make your choice today  
It's exit, voice or loyalty  
We hear the things they say  
It's all insanity  
You make your choice today  
It's exit, voice or loyalty

I see they're all the same  
I see they're all the same  
I see they're all the same  
I'll set it all on fire  
I see they're all the same  
I see they're all the same

I see they're all the same  
I'll set it all on fire
