

# Higher Than Death

3TEETH

Stripped of all our nature  
Turned into a creature  
Lost ourself, seal the mouth  
And now we'll never see her

I watched it fall today  
They took it all away  
How'd they think we could live so small  
Fed with scraps of hate and pain

I'm higher than death  
Than death  
Now I'm higher than death  
I'm higher than death

How should we die  
Our beautiful freedom  
Can't keep it alive when you can't find the meaning  
Look at us now beaten and bleeding  
There's nothing inside, no truth and no reason

I'm higher than death

Inhale your defiance  
Exhale breath of violence  
We'll burn the wealth  
Cut ourselves and bleed out self-reliance

They live so cowardly  
Lets make their towers sway  
Shake the earth  
Watch them fall  
Sick and tired of apathy

I'm higher than death  
Than death  
Now I'm higher than death  
I'm higher than death

How should we die  
Our beautiful freedom  
Can't keep it alive when you can't find the meaning  
Look at us now beaten and bleeding  
There's nothing inside, no truth and no reason

I'm higher than death

It's theft, everything they took from us  
And left lies lies lies  
What's left motherfucking selfish greed  
As they let us die

How should we die  
Our beautiful freedom  
Can't keep it alive when you can't find the meaning  
Look at us now beaten and bleeding

There's nothing inside, no truth and no reason  
Look at us now kicking and screaming  
Just to find out it's the lies we believe in

There's a light that will never fade  
Through the smoke I can see my flame  
Another breath and then I fade away  
Holy mother, take me over

There's a light that will never fade  
Through the smoke I can see my flame  
Another breath and then I fade away  
Holy mother, take me over

I'm higher than death
