

# Paralyze

3TEETH

Mesmerized by material flame  
Mainlined to your limbic brain  
Injectable sensation of hate  
Projected all today  
Inside your hallowed cave

Wider wider grows the great divide  
As the frequency is amplified

Losing control of my

Paralyze  
As your mind begins to calcify  
Paralyze  
Infotoxin for your slow demise  
Paralyze  
As your mind begins to calcify  
Paralyze  
Infotoxin for your slow demise

I can't see straight

Unable to think or feel, through panic and fear  
Unable to think or feel, through panic and fear

Can't steer the wheel without her hands  
Down my pants  
Flame high, drip like dapper dan  
Now the devil wanna dance  
The whole world as my audience  
They kill again, they rise again  
We all know how the story end  
Watch the devil pull me in

Take control of me  
Watch the devil pull me in

Your brain is desensitized  
No borders, I am coming in  
Fuck it, shoot 'em right in their sleep  
Lethal injection by genocide  
Missile hit, heat seeker, pistol grip  
Born alone, die alone  
The world is just my dirty bitch  
Fuck her for revenge + she stimulate my cranium  
Maggots come to infest  
Wall to wall, age of sin

Paralyze  
As your mind begins to calcify  
Paralyze  
Infotoxin for your slow demise  
Paralyze  
As your mind begins to calcify  
Paralyze  
Infotoxin for your slow demise

I can't see straight

Today we are seeing a general population processing infotoxins through a large scale prosthetic digital nervous system and the effects appear to paralyzing the ability to think critically.

Wider wider grows the great divide  
As the frequency is amplified

Paralyze  
As your mind begins to calcify  
Paralyze  
Infotoxin for your slow demise  
Paralyze  
As your mind begins to calcify  
Paralyze  
Infotoxin for your slow demise

I can't see straight
