

# Scorpion

3TEETH

Manifestation of pure pain  
The source of pleasure all the same  
Everything I know, everything I feel  
Impervious to every spell

Lowered my vibration  
Just to feel sensation  
Onyx eyes with diamond tongue  
I can see through everyone

I am the scorpion  
I am the scorpion  
I reside behind the sun  
The ghost of time  
Bringer of oblivion

I am the scorpion  
I am the scorpion  
I reside behind the sun  
The ghost of time  
Bringer of oblivion

Solomonic demon charger  
Use my sigil for a target  
I was born in the storm with level 3 body armor  
King of all the dying  
Killer of Orion  
I don't need your fucking martyr  
I eat death like Jeffery Dahmer  
I will sting everything  
With my poison as your karma

Serpent of desire  
Water in the fire  
Onyx eyes with diamond tongue  
I can see through everyone

I am the scorpion  
I am the scorpion  
I reside behind the sun  
The ghost of time  
Bringer of oblivion

I am the scorpion  
I am the scorpion  
I reside behind the sun  
The ghost of time  
Bringer of oblivion

I can see through everyone

I am the scorpion  
I am the scorpion  
I reside behind the sun  
The ghost of time  
Bringer of oblivion

I am the scorpion  
I am the scorpion  
I reside behind the sun  
The ghost of time  
Bringer of oblivion

Bringer of oblivion  
Bringer of oblivion
