

Slum Planet

3TEETH

Taste the waste
Of our neon disgrace
Deformed children made from corporate gods grace
Better wear your mask because
The air melts your face
No one wins in this human race

I pledge allegiance to my own corruption
Preserving my freedom of self-destruction
I want to be the one with the most damage
You can't tell me how to live on my
Slum planet

My trash hate and lies
Piled as high as I like
So welcome to my
Slum planet
I don't care if you live or you die
As long as your willing to buy
So welcome to my
Slum planet

The only thing here built to last
Is the engine that turns your world to trash
My domain is the future pain
Light your path like a moth to the flame

My trash hate and lies
Piled as high as I like
So welcome to my
Slum planet
I don't care if you live or you die
As long as your willing to buy
So welcome to my
Slum planet

Behind my plastic faces
Sealed off inside glass cases
My machine my machine will grant it
All the dreams of a slum planet

Slum planet
Slum planet
Slum planet

"Today we shall no longer live in shame and regret of our inability to coexist in accord with nature. We must embrace our superior position upon this planet and recognize it as a resource for our disposal and no matter how finite of a resource it is, we shall live for today and not question the limitations of tomorrow, as we are the gods of now. Thank you for your donation."

My trash hate and lies
Piled as high as I like
So welcome to my
Slum planet
I don't care if you live or you die
As long as your willing to buy

So welcome to my
Slum planet

Behind my plastic faces
Sealed off inside glass cases
My machine my machine will grant it
All the dreams of a slum planet

Slum planet
Slum planet
