

Tabula Umbra

3TEETH

"The girl is one of the country's countless LSD victims. The control of one mind by another, the unlocking of the subconscious, and the chance, is as old as mankind and was certainly one of the fundamental methods of casting effective spells: a stock-in-trade of the witches since man emerged from the primates. Science may prefer to call it parapsychology, but essentially its operation is what has always been known as magic—black or white ."
